## SKILLS

HTML | CSS | SASS | JavaScript | Angular | PHP | MySQL | Git | Node.js

## EXPERIENCE

### Grizzle Heating & Air, Marietta, GA— *Web Developer*

AUGUST 2017 – DECEMBER 2017

- Worked with a small team to develop a website for a local heating & air company
- Developed the contact form functionality such as validation and error handling
- Implemented PHPMailer to allow client to receive messages
- Assisted client in setting up domain with GoDaddy

### Dictionary— *Personal project*

- Developed JavaScript and PHP dictionary app that leverages the Oxford Dictionary API
- Used Ajax to make call to PHP file on the backend
- Used the PHP library cURL to call the API

### Node Chat— *Personal project*

- Instant messaging app developed with Node and Socket.io
- Socket.io is used to display notifications for users joining and typing

### Angular Addressbook— *Personal project*

- Addressbook built with Angular 11
- Used PHP for backend operations such as account/contact creation
- MySQL was used for the credential storage as well as user contact data

### Sprouts Farmers Market, Smyrna, GA— *Assistant Dairy Manager*

FEBRUARY 2017 – PRESENT

- Resolve customer issues and complaints quickly and efficiently
- Scan entire department sales floor daily to keep inventory accurate
- Use Periscope software to place order for weekly shipments

## EDUCATION
